I would like to know what qualifications a fish shop owner has to randomly open up a supposedly children's home…it sounds very dodgy to me! If it is the same man that owns multiple properties in the area & never fixes them if tenants have a problem The dorma will overlook the back of the houses on Gramfield Road leaving no privacy for those homes, the amount of parked cars at all of the houses already cause it to be like a chicane, the value of houses in the area may drop/decrease which is not what residents want. It's a nice quiet area that rarely has any problems at all & has a lot of elderly & young residents & they feel safe in their homes & the area around them, This could potentially cause a problem with noise pollution & many other problems could be caused by young adults with mental health problems none of the residents want any upset or police presence which could increase if this is the case Why have none of the residents in the area have been informed about this proposition which is wrong
