I wish to object to the change of use application for 24 Thornleigh Road. There has not been any planning application notices made available on lamp posts for residents to view and make comments/objections. As i understand it the application refers to 24 only, my concern is that 24 can accommodate 2 children and will need 1 manager plus 6-7 full time residential care workers (including team leaders), it states there will be a minimum of 2 staff on duty at night and sleeping there. The plans show a carers bedroom with 1 bed! This in my opinion seems alot of staff to look after 2 children that need care. My concerns are that the applicant will knock through into no 26 Thornleigh Road (application no 2025/91960) which has been granted, allowing more children than originally stated. Also i am very concerned if the above happens ie more children it will have a devastating effect on the residents of Thornleigh Road and Gramfield Road due to the increased risk of anti social behaviour and increased noise pollution of the said children. Why do we need to change a residential area into a proposed comercial area, if approved where will it stop! We bought our house on Thornleigh Road because it is a quiet residential road, people have have families and children grow up that's fine. Having a commercial childrens care home will certainly reduce house prices in a residential area. Also i have concerns with increased traffic on Thornleigh Road and parking issues (we already have on road parking issues on Thornleigh and Gramfield Road) and a possible risk of danger to all children who live on the street. Finally a childrens care home is not suitable on a residential estate, it is not fair on the residents who bought their properties years ago who wish to live on a peaceful residential estate for the rest of their lives.
