After reading some of the comments on here about the nature of a children’s home please take account of residents feelings. This application for a start was underhand by the council for not displaying the change of dwelling to a children’s home on notices outside the property until the 7th November. If it hadn’t been spotted by a neighbour on your website it would have gone ahead. Many people have lived up here in Thornleigh Road which is a residential street for many years & are very upset & totally do not want this in our street. We don’t know who will be running this Children’s home or how many more children will be living there in the future. The state of both 24 & 26 have been an eyesore for many months & does not represent why we bought a property up here. It just degrades the street .
