This development seems well designed, attractive and sensitive to the area. Keeping cars on the periphery maximises green and communal spaces. Living across the canal, our only concern would be light pollution. We hope external lighting on walkways and carparks would be low level and not dazzling floodlights from high up. Reinstating the footpath from the canal to the access road and A62 is crucial and the new access from the towpath onto the site looks to be via a ramp and not steps - all very positive.
