Dated: 29 September 2015

Tree Thinning Application – The Woodlands

Further to the application made by Janet Wade and attached, I write as the owner of property H2 shown on the attached plan. While the trees identified to be thinned sit on the land owned by The Woodlands, I write to confirm that the proposed thinning has my support.

Continuing to allow the identified trees to grow with no thinning will detrimentally affect the level of light to my property and to garden that it overshadows currently

Yours Sincerely

Alan Lee
