<p>I have submitted evidence (comp/24/0451) the raised platform was completed roughly 3/9/24.</p> <p>This development has already made our garden alot less private . The applicant linda oldham uses the platform to lean over the fence between our properties and invade our privacy. As this raised platform makes the top of the fence waste high for anyone stood on the platform, again evidence has been submitted (about 40 plus emails with images). The platform is too close to the fence , we have a right to enjoy our garden without linda and her visitors standing on the edge of the platform having a good look into our garden invading our privacy. The images i sent say it all.</p>
