date put down as started 1/8/2025 is wrong, building work started mid august 2024 and was completed roughly 3/9/24. does this mean linda has given false information on her application ? it seems to me Linda applied for retrospective planning after she had convinced Jessica Irwin from kirklees that my complaint about her raised platform (comp/24/0451) was about her decking and not the brick platform. also is she allowed to put that hedge as a screen? because it is not working as a screen at all.
