| <p>In the past three months there have been 3 hit and run incidents on the junction of Low Westwood Lane and Manchester Road. Two are police recorded incidents and one not .</p> <p>One was involving a commercial vehicle, one a car, which narrowly missed a killing a pedestrian, and one could not be identified. While the hit and runs have resulted in damage to property (which includes the traffic lights) around the junction this clearly demonstrates the junction is far from adequate to take the current traffic let alone additional traffic and the HGV's which would be need for the excavation of building works required and delivery of building products. Access to the land should only be granted directly from Manchester road.</p> <p>Give planning permission at your peril.</p> | |
