<p>We have no objection to the majority of the planning application but having suffered the consequences last Summer of a battery of bee hives on the property in question we would object to this being repeated. Deposits from the bees on our car, windows, garden furniture, parasols and especially on washing was intolerable. No representation to the owner was made at the time because it was assumed that bee keeping on such a scale would not be repeated. However, no details of the scale of this proposed activity are included in the planning application. A few hives (to be decided by whom?) would be acceptable but nothing on the 'industrial scale' of last year should be allowed. Residents along Wooldale Road who are unaware of this application should perhaps be approached for their experiences to be aired and documented.</p>
