<p>Objection to Rear Dormer Extension</p> <p>I wish to object to the proposed rear dormer extension on the grounds of loss of privacy, visual intrusion, and the development being out of character with the surrounding properties.</p> <p>The dormer extension is excessively large and appears intrusive when viewed from my property. Its scale and design are not in keeping with the character or appearance of neighbouring homes, resulting in a development that is visually overbearing.</p> <p>The proposed windows are particularly concerning. Their size and positioning allow direct overlooking into both my property and my neighbour's, leading to a significant and unacceptable loss of privacy. The upper-level extension, in its current form, is visually bulky and unattractive, further contributing to the sense of dominance over adjacent properties.</p> <p>For these reasons, I believe the proposal will have a harmful impact on residential amenity and the character of the area, and I respectfully request that the application be refused.</p>
