1. The revised proposal is still a large overbearing development which is out of character with the surrounding properties.
2. The revised proposal is no further away from our boundary than the previous submission. It is still approximately 1m from our boundary at the closest point.
We note that the plot of land has increased in size northwards from the previous submissions. There is therefore certainly scope to build this property further to the north away from our boundary.

Thank you for your consideration.
