Dear Sirs

**Work to dangerous tree
OakScar Lamb Hall Road Longwood**

We are herewith issuing the council with a 5 day notice that we intend to fell the dead tree indicated on the enclosed TPO map and photos.

The tree is totally dead and recent strong winds have resulted in movement and concerns that the tree will collapse causing damage to nearby fences and gates and neighbours gardens. The public also have access to the woodland area particularly when the water level within the adjacent reservoir is reduced (as is the case at the moment) giving easy access route for the public into the woodland.

We therefore wish to mitigate the risk to the public.

The work is being handled by Liam Robinson of A cut above tree surgeons.

We trust the above and enclosed is satisfactory for your purposes.

Regards

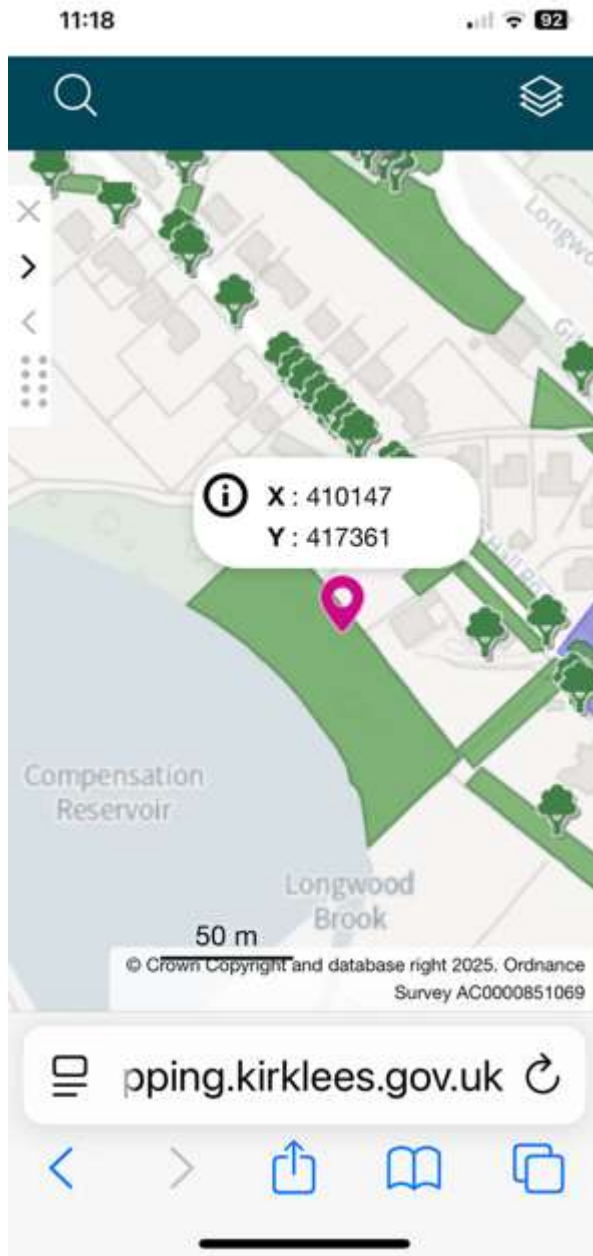

Robert Grayson FRICS
