Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

Name of applicant/agent	Dave field
Site Address	7 Woburn drive, waterloo, Huddersfield
Description of Development	first floor side extension

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
None, the extension will be constructed to the recently updated building regulations part L with enhance u values, enhancing the building fabric and reducing heat loss.
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
All materials will be source locally.
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

No renewable energy sources are being proposed
Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)
There are no requirements for new extension to go beyond the current building regulations, the extension will comply with the current building regulations including the recent part L and F changes
Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)
The site isn't within a flood risk area, there is no flood risk
Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)
n/a
Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)
there are no bng enhancements associated with this application. No additional land use is proposed
Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)
No machinery will be left running whilst not being used, delivery vehicles will not be left running whilst making material deliveries.
