Subject: re Application 2025/CLASS MA/93098

Dear Case Officer;

Ms Joanna Rednall

Re: Application number 2025/CLASS MA/93098/ re: - Description / Development Prior notification for change of use from commercial/business/service to one dwelling

We write with serious concerns with regards to the aforementioned application;

- 1) The applicant address states their address is; **1 Newsome Health Centre Church Lane**, which is actually our GP surgery address.
- 2) The whole premises i.e 1A church lane , is historically is a commercial premises on the main street. It is unclear how there is change of use when it has opened as a DIY shop? Has mixed use been authorised? i.e shop down stairs and flats upstairs?
- 3) There is a large shipping container which was delivered to the premises and placed behind the premises today (11/11/25) , was planning permission sought for this ?
- 4) Given above points has parking been considered? As parking may impinge on parking for surgery staff and patients?
