Company Registration Number: 09898149 - Company Registered in England and Wales

## Part 1: Applicant details

Name of applicant/agent	Agent – Paul Matthews Architectural Applicant – Mr & Mrs C Lunn
Site Address	2 Acorn Drive, Meltham, Holmfirth, HD9 5AJ.
Description of Development	Extension to Existing Driveway

## Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
The proposals include of the addition of an Electric Vehicle Charge Point which will not directly affect energy demand but will provide the dwelling with a renewable and sustainable aspect.
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
The installation of the EVCP will aid in carbon reduction from vehicular use in general.
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

The installation of an EVCP will provide the dwelling with a renewable and sustainable aspect.
--

Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)

The proposals will present a more energy-efficient dwelling as a result of the EVCP.

Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)

Flood risk does not apply to this application

Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)

Not applicable on this application.

Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)

Not applicable on this application.

Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)

Not applicable on this application.

## **Appendix B – Further information**

### **Kirklees Local Plan**

The development plan for the Kirklees Council area ([www.kirklees.gov.uk/localplan](http://www.kirklees.gov.uk/localplan))

### **Planning applications guidance and advice notes**

<https://www.kirklees.gov.uk/beta/planning-applications/guidance-and-advice-notes.aspx>

### **Air Quality and Pollution:**

Kirklees Council's website has information on sources of pollution and our Air Quality Management Areas.

<https://www.kirklees.gov.uk/beta/crime-and-safety/air-pollution.aspx>

### **Building Design and Layout:**

The Construction Industry Research Information (CIRIA) publishes guidance on various construction issues, including building and construction technology and sustainability and the built environment.

[www.ciria.org.uk](http://www.ciria.org.uk)

Information on environmentally friendly construction products can be found from the Royal Institute of British Architects product selector website.

[www.ribaproductselector.com](http://www.ribaproductselector.com)

Passivhaus Trust provides guidance for designing for increasing summer temperatures and constructing buildings to a high energy efficient standard using a quality assurance approach.
