<p>This company recklessly threw chairs at the beautiful windows on this shop (Former Lloyds Chemist) to break them, in doing so broke antique preserved stain glass. They unlawfully and without the correct permission smashed the windows and frames. Now they have been stopped and 'boarded' the windows up. making Birstall centre look like an eyesore. They first need to rectify the windows back to the original state, including replacing the stain glass, before this application gets accepted.</p>
