<p>Birstall and the surrounding areas is already saturated with barber shops and the hair trade. This establishment will have a impact on parking due to nature of the business, Lengthy stay visits. This issue of parking already exists as a result of the paying carpark introduced recently. Trying to shop locally and supporting local businesses is becoming a task in this village impacting business and struggling as a result. Another Barber shop in the villige will not benefit the community in Birstall as we have several already .There are 7 plus barber shops in Birstall alone and another 3 in the surrounding areas. Birstall village and its shoppers will not benefit from another Barber shop.</p> <p>Birstall is a historic village which should be preserved that way encouraging shops that will benifit a variety of shoppers and with that in mind and a view of too many of the same shop pushes business away and impacts whats already there.</p>
