Postcode:	WF17 9EL

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
I am given to believe that the person/person who instructed the 'builders' to destroy the existing shop front already occupies a property in Birstall Marketplace. Therefore they would know/ought to have known that planning permission is required. However they willfully destroyed the shop front and are now applying for retrospective planning. If planning permission is granted, it will only encourage others to retrospectively apply for planning
