User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>This chemist has always been a big part of the Birstall community. I feel that this proposal shouldn't go ahead. The grounds is this building is a listed building and any changes to the look of the building will deviate from how it previously looked. The shop was full of characters. The company who have purchased this building have not given any consideration to the character of the premises and its history and have been totally disrespectful to the village of Birstall.</p> <p>Birstall does not need another barbers there is ample.</p>
