<p>The proposal is in a conservation area - what exactly are they conserving? The front has already been smashed to bits and totally spoilt the look of how Birstall is and should be. They should be made to put this back to how it was. we do not need anymore barbers in birstall, there are enough already, adding another one puts the already established businesses at risk. Keep our village how it is and not spoil the look and community anymore than it already has been.</p>
