<p>I live at 5 Croft Drive. I have concerns about the drainage as pipes from my property travel underneath 3 Croft Drive. The pipes travel from my back garden, under my greenhouse and into a manhole situated on the spare ground, to the left of the greenhouse on 3 Croft Drive. I understand from the previous owner of No 3 that the pipes travel under 3 Croft Drive and into pipework on the perimeter of that property. Any damage to existing pipework, whilst the new property is being constructed, will impact on the drainage from my property. If the drainage system from my property is not considered sufficiently there could be major problems for me in the future. The developer needs to be aware of this potential situation.</p>
