Dear Liz,

Thank you for the email of the 20th of November 2025.

WYAAS has no comment on the above conditions but if it helps, I will refer you to my colleague's response on the 24th of April 2025 which detailed that the final report documenting archaeological and architectural recording of the trainshed roof structure at Huddersfield Railway Station. This is satisfactory and I recommend that condition 3i relating to this is discharged.
