as a market trader i rely on both tuesday and saturday markets to provide me with an income. The Saturday market is always full with no vacant stalls , This temporary building will not provide sufficient stalls for the regular traders and will undoubtedly take away a much relied on income for many traders . I clear houses out and sell any resalable items , this is my main income , i fill 4 stalls every Saturday and have hundreds of regular customers . The figures quoted by the council are very misleading , making the market out to be no where near as busy as it is , and underplaying the impact that its closure will have on hundreds of traders and thousands of visitors / customers . a smaller market is not likely to attract as many visitors and would in turn have a negative effect on traders turnover , some traders will not make enough money to carry on trading . All traders are very worried about these developments , the likely hood of forced redundancy is very real and i think the council should seriously have a rethink about ruining peoples lives ... how can a market with 100% full capacity be bettered ?
