<p>1. The "prospective trader survey" in the Design and Access Statement states "most traders requested roof cover." There is no indication of the question they were asked, eg whether they were consulted on weather protection. Had they been asked this question a different response was likely to have elicited a different response. Were they asked about the temporary arrangement or the eventual permanent arrangement? Therefore the consultation aspect is flawed.</p> <p>2. There is no indication of the process to be used to determine which Saturday traders will be unable to rent the fewer number of stalls available during the temporary operation of replacement stalls.</p> <p>3. There is no indication of the procedure that will be used to allocate the 36 covered dry goods trading area to the existing 72 Saturday traders.</p>
