<p>The dog walking field will provide a useful facility for the local area allowing owners of dogs who wish to cater for their dogs needs in a private, secluded area allowing them to exercise freely as well as being able to train and socialise their dogs away from other dogs and members of the public. Many people do not like using public parks and areas where other dogs are allowed to run around or children or sports activities are going on especially if they are reactive, ill, have mobility issues or are older. This facility would provide a valuable asset to the area. It would help a small business start up in the local area too. I support this application.</p>
