<p>As one of the nearest residences to this spot and being in sight of the land I have no objections to this application providing there is adequate parking within the site. I note that only four parking spaces are proposed. I am sceptical that this will be enough and would request an upgrade on this number. Wood Bottom is narrow and any parking on the road will cause traffic problems.</p> <p>I understand that some residents on the nearby estate are objecting due to noise and pollution amongst other matters.</p> <p>There are already numerous businesses in this locality with associated articulated wagon movements throughout the day so a few more cars will make little difference. The noise from the site to the estate will be barely heard, and they cannot see the site from there.</p> <p>I note also that the majority of residents on the estate are dog owners themselves! I am in support of this applicant who is obviously starting a new business.</p>
