<p>I support this application. I often meet up with a dog owning friend from this area and there is a definite need for a safe secure field here. It will allow owners to responsibly meet their dog's exercise needs - especially but not exclusively reactive dogs, nervous dogs and those with poor recall. It will also mean greater safety for livestock, wildlife and walkers in the surrounding area as the the dogs will be securely separated from farmland and other open spaces. A positive opportunity to improve quality of life and access to the countryside for all.</p>
