

PROPOSED BLOCK PLAN

Scale 1:500

Existing Fence

Existing perimeter fencing to be retained.

New perimeter boundary to be installed 10m from waters edge with equestrian fence tape. 10m strip to be left for wilding.

Existing timber hut for storage to be retained. 6150mm x 2590mm x 2500mm high.

Agility Area - to be equipped with free-standing agility equipment for dog training.

New parking area to be created for 4no cars including turning space and gate access into main field. Area to be gravelled. Hatched area shows area of land to be regraded for parking.

New fencing and gates around the car park area.

Existing banking to be left to wild. A few native trees and plants will be planted to attract bees and insects, including bee and insect boxes and hedgehog houses. The shrubs are being donated by Holme Valley River Trust to help with their environmental project. These additions will create a sanctuary for small creatures encouraging biodiversity in the area and help maintain the local ecosystem's balance.

Existing gate opening to be widened to 6m. Existing gate to be re-used with additional new gate to match existing. Section of unstable dry stone walling to be rebuilt to accommodate new opening.
