<p>I am supporting this application because I feel that dog training is very important in the community and an outside space where this can take place will be valuable.</p> <p>There should be enough parking spaces planned for without having to use the road as dog training is most successfully done in small groups. Obviously it would only be happening at certain times so is unlikely to cause a noise nuisance to local people.</p> <p>The change of use from agriculture will make it a cleaner space as training is also for owners who I'm sure will be taught to clean up after their dogs.</p> <p>Aesthetically the field could become a haven for wildlife if wild flowers and flowering shrubs were to be encouraged.</p> <p>I think the field could become an interesting space for both users and observers and could add much to an already very pretty valley.</p>
