DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	2025/62/93255/W
Site Address:	23, Imperial Road, Edgerton, Huddersfield, HD3 3AF
Description:	Alterations to intergral garage to extend living accommodation (within a Conservation Area)
Recommending Officer:	Joshua Merriman

DECISION – CONDITIONAL FULL PERMISSION

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

John Holmes

AUTHORISED OFFICER

Date: 22-Jan-2026

Officer Report – 2025/93255

Site Description

The application site refers to 23, Imperial Road, Edgerton, Huddersfield, HD3 3AF, a three-storey detached residential property faced in sandstone, with a pitched tiled roof, wood frame windows, and uPVC doors. The application property lies in a relatively uniform street scene, surrounded by properties of a similar size, scale, character, appearance, and age. Furthermore, the application dwelling benefits from a hard-standing parking area to the front, as well as amenity space to the rear.

Description of Proposal

The Scheme

The applicant is seeking permission for Alterations to integral garage to extend living accommodation (within a Conservation Area).

The proposed alterations include replacing the existing garage door at basement level to a front bay window, matching that seen in the front elevation of the ground floor, as well as changing the use of the garage to a utility room and bedroom.

Supporting Information

In addition to the submitted plans the following documents have been submitted to support the application:

- Climate Change Statement
- Conservation/Heritage Assessment

History of Negotiations / Amendments Received

No amendments have been requested by Officers.

Relevant Planning History

There is no relevant planning history at the application site.

Representations

Publication of the application has been undertaken in accordance with the Council's Development Management Charter.

The application has been publicised as affecting the setting of a conservation area, on the Council's website, by site notice and by press advertisement. The expiry date of the publicity period was the 12/01/2026.

Consultation Responses

No consultations were considered necessary for this application.

Allocation and Policy

The site is allocated in the Edgerton Conservation Area within the Kirklees Local Plan (adopted 2019). The site is also located within a bat alert layer.

The following legislation, policy and guidance is considered relevant to the determination of this application:-

Kirklees Local Plan

- LP1 Achieving Sustainable Development
- LP2 Place Shaping
- LP21 Highway and Access
- LP22 Parking
- LP24 Design
- LP30 Biodiversity and Geodiversity
- LP35 Historic Environment

National Policies and Guidance

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published December 2024, the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter2 Achieving sustainable development
- Chapter12 Achieving well-designed places
- Chapter14 Meeting the challenge of climate change, flooding and coastal change
- Chapter15 Conserving and enhancing the natural environment
- Chapter16 Conserving and enhancing the historic environment

Supplementary Planning Documents / guidance

- Kirklees Highway Design Guide (adopted November 2019)
- House Extensions & Alterations SPD (adopted June 2021)

- The Biodiversity Net Gain Technical Advice Note

Legislation

- The Town & Country Planning Act 1990 (as amended).

The Town & Country Planning (Listed Buildings & Conservation Areas) Act 1990

The Planning and Compulsory Purchase Act 2004.

The Conservation of Habitats and Species Regulations 2017

Section 38(6) of the Planning and Compulsory Purchase Act 2004 sets out that in considering planning applications the determination must be made in accordance with the plan unless material considerations indicate otherwise

Section 72 of the Town & Country Planning (Listed Buildings & Conservation Areas) Act 1990 requires Local Planning Authorities to pay special attention to the desirability of preserving or enhancing the character of appearance of Conservation Areas.

Assessment

The following matters are considered in the assessment below –

1. Principle of development
2. Impact upon the character and appearance of the area (including impact upon historic environment)
3. Impact upon residential amenity
4. Impact upon highway safety
5. Climate Change
6. Other matters – e.g. trees/ecology (e.g. bats)
7. Representations
8. Conclusion

1 – Principle of Development

Policy LP1 of the KLP states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the NPPF.

Paragraph 11 concludes that the presumption in favour of sustainable development does not apply where specific policies in the NPPF indicate development should be restricted. This too will be explored.

The site is located within the Edgerton Conservation Area on the Kirklees Local Plan. Policy LP1 of the Kirklees Local Plan states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the National Planning Policy Framework. LP1 goes on further to stating that:

The Council will always work pro-actively with applicants jointly to find solutions which mean that the proposal can be approved wherever possible, and to secure development that improves the economic, social and environmental conditions in the area.

Policy LP2 of the KLP sets out that all development proposals should seek to build on the strengths, opportunities and help address challenges identified in the Local Plan.

As the site is located within the Edgerton Conservation Area; therefore Section 72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 needs to be considered, which requires Local Planning Authorities to pay special attention in order to preserve or enhance the character and setting of buildings or land within a Conservation Area.

LP35 states that:

'Development proposals affecting a designated heritage asset...should preserve or enhance the significance of the asset. In cases likely to result in substantial harm or loss, development will only be permitted where it can be demonstrated that the proposals would bring substantial public benefits that clearly outweigh the harm'.

The dimensions of sustainable development will be considered throughout the proposal.

In terms of extending and making alterations to a property, Policy LP24 of the KLP is relevant, in conjunction with the House Extensions and Alterations SPD and Chapter 12 of the NPPF, regarding design. In this case, the principle of development is considered acceptable, and the proposal shall now be assessed against all other material planning considerations, including visual and residential amenity, as well as highway safety.

These issues along with other policy considerations will be addressed below.

Considering the above policy, the principle of the development is considered to be acceptable.

2 – Impact on character and appearance of the area (including impact upon historic environment):

Visual Amenity

Section 12 of the NPPF discusses good design. Good design is a key aspect of sustainable development, it creates better places in which to live and work and helps to make development acceptable to communities. Local Plan Policies LP1, LP2 and most importantly LP24, are all also relevant. All the policies seek to achieve good quality design that retains a sense of local identity, which is in keeping with the scale of development in the local area and is visually attractive.

Local Plan Policy LP24(a) states that all proposals should promote good design by ensuring the following: *'the form, scale, layout and details of all development respects and enhances the character of the townscape, heritage assets and landscape'*.

Key Design Principles 1 and 2 of the Council's adopted House Extensions & Alterations Supplementary Planning Document (SPD) seek to ensure development is subservient to the host property and in keeping with the character of the locality.

Historic Environment

Section 66 of the Planning (Listed Buildings & Conservations Areas) Act (1990) states that for development which affects a listed building or its setting, the local planning authority shall have special regard to the desirability of preserving the building or its setting or any features of special architectural or historic interest which it possesses.

Section 66 of the Planning (Listed Building & Conservation Areas) Act (1990) is mirrored in Policy LP35 of the Kirklees Local Plan and Chapter 16 of the National Planning Policy Framework.

Furthermore, LP35 states that: *“development proposals affecting a designated heritage asset...should preserve or enhance the significance of the asset. In cases likely to result in substantial harm or loss, development will only be permitted where it can be demonstrated that the proposals would bring substantial public benefits that clearly outweigh the harm.”*

At paragraphs 213 – 215 the NPPF is clear, that where development leads to substantial harm, this is necessary to achieve substantial public benefits that outweigh that harm or, in the case of less than substantial harm this should be weight against the public benefits of the proposal including, where appropriate, securing its optimum viable use.

The proposed extension of living accommodation within the application property is not considered to have any significant impact upon the visual amenity of the application property as the proposed bay window is similar to that existing in the dwelling, and is considered to be less visually intrusive than the existing garage door.

As the bay window is similar to that in the application property and those within neighbouring dwellings, it is considered that no comments from KC Conservation & Design were necessary on this matter. The proposal would improve the appearance of the building by removing a vehicular access door and its replacement with a window which is in keeping with the character of the host property and design of existing openings. The proposal is not, therefore, concluded to lead to any harm.

The proposed development is therefore considered to comply with Policies LP1, LP2, LP24, and LP35 of the Kirklees Local Plan, and Policies within Chapter 12 of the National Planning Policy Framework.

3. Impact on Residential Amenity

Sections B and C of LP24 states that alterations to existing buildings should:

“...maintain appropriate distances between buildings’ and ‘...minimise impact on residential amenity of future and neighbouring occupiers.”

Further to this, Paragraph 135 of the National Planning Policy Framework states that planning decisions should ensure that developments have a high standard of amenity for existing and future users.

Key Design Principles 3, 4, 5 and 6 of the Council’s adopted House Extensions & Alterations SPD seek to ensure development does not have a detrimental impact upon privacy of neighbouring occupiers, cause unacceptable levels of overshadowing or be unacceptably oppressive / overbearing.

As the proposed bedroom window is the same distance away from neighbouring properties as existing windows in the application property and neighbouring dwellings that currently have no significant impact upon residential amenities, it is considered that the proposed alterations will have no significant impact upon privacy of neighbours. Furthermore, due to the limited scale of the development, there will be no impact on neighbouring properties with regard to overshadowing, overbearing, light, or outlook.

It is therefore considered that in terms of residential amenity, the proposed would comply with Policy LP24 of the Kirklees Local Plan, and advice within Chapter 12, and Paragraph 135, of the National Planning Policy Framework.

4. Impact on Highway Safety

Policies LP21 and LP22 of the Kirklees Local Plan and Chapter 9 of the NPPF relate to access and highway safety and are considered to be relevant to the consideration of this application. The Council’s adopted Highway Design Guide and Key Design Principle 15 of the adopted House Extensions & Alterations SPD which seek to ensure acceptable levels of off-street parking are retained are also considered to be of relevance.

Principle 19 of the Council’s adopted House Extensions & Alterations Supplementary Planning Document (SPD) requires the provision for waste storage and recycling must be incorporated into the design of new developments in such a way that it is convenient for both collection and use whilst having minimal visual impact on the development.

It should be noted that although nothing specific is detailed on the submitted plans, the site will retain adequate space for waste storage.

The number of bedrooms in the property will increase by one as a result of the development, and the existing garage will be removed from site, however, as the garage space was not great enough in size to accommodate a parking space the current parking provision will not theoretically be reduced, therefore, the current parking provision is acceptable to remain. Furthermore,

the proposal will have no significant impact on highway safety as the dwelling is set well back from the closest highway.

It is therefore considered that in terms of access and highway safety / parking the proposed would comply with Policies LP21 and LP22 of the Kirklees Local Plan, Principle 15 of the Council's Street Design Guide and Chapter 9 of the National Planning Policy Framework.

5. Climate Change

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target. However, it includes a series of policies, which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Considering the scale and nature of the proposed development, especially that it is for private use, it is considered that the proposed development would not have an impact on climate change that needs mitigation to address the climate change emergency. The proposed development would therefore comply with Chapter 14 of the National Planning Policy Framework.

6. Other Matters

Impact upon Ecology

Chapter 15 of the National Planning Policy Framework is relevant, together with The Conservation of Habitats and Species Regulations 2017 which protect, by law, the habitat and animals of certain species including newts, bats and badgers.

Policy LP30 of the Kirklees Local Plan requires that proposals protect Habitats and Species of Principal Importance. Whilst it is acknowledged that the site is located within an identified bat roosting area, the proposals are relatively modest, and in this case would not impact upon the existing roof space which has the potential for providing a roost for bats. Therefore, it is considered unlikely that the proposals would have a significant impact on the bat population. An informative would be included making the applicant aware that if bats are discovered on site during the works, any development shall cease, and the applicant is advised to contact Natural England for advice on how to move forward. Subject to informative the proposal is considered to be acceptable in this regard.

7. Representations

No representations have been received.

8. Conclusion

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

This application has been assessed against relevant policies in the development plan and other material considerations. It is considered, the proposed development would constitute sustainable development and is therefore recommended for approval.

Recommendation
PERMISSION

CONDITIONAL FULL

Decision Authorisation: Delegated Powers

Application Number: 2025/93255

Officer Recommendation: Conditional Full Permission

Conditions

1. The development hereby permitted shall be begun within three years of the date of this permission.

Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990 (as amended).

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and to accord with Policies LP01, LP02, LP21, LP22 & LP24 of the Kirklees Local Plan, Principles 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 & 15 of the Council's adopted House Extensions & Alterations Supplementary Planning Document and Policies within Chapters 2, 9, 12 and 14 of the National Planning Policy Framework.

3. The materials of construction used in the construction of the development hereby approved shall in all respects match those used in the construction of the existing building and be retained thereafter.

Reason: In the interests of visual amenity and to preserve the character and setting of the Conservation Area to accord with policies LP24 and LP35 of the Kirklees Local Plan and the policies contained within Chapters 12 and 16 of the National Planning Policy Framework.

NOTE: Due to its location, a bat roost may be present on site. Bats are a European protected species under regulation 42 of The Conservation of Habitats and Species Regulations 2017. It is an offence for anyone intentionally to kill, injure or handle a bat, disturb a roosting bat, or sell or offer a bat for sale without a licence. It is also an offence to damage, destroy or obstruct access to any place used by bats for shelter, whether they are present or not. If bats are discovered on site development shall cease and the applicant is advised to contact Natural England for advice.

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2024 and otherwise actively engaged with the applicant in dealing with the application. No amendments were sought as it was considered that the proposal was acceptable as submitted.
