<p>The proposed planning application for 1A Lydgate Drive represents a significant change in its use in this particular area.</p> <p>This is a quiet residential road predominantly consisting of bungalows housing vulnerable elderly residents and young families, and creating a children's home in this environment is totally unsuitable.</p> <p>There are many important concerns with this application:</p> <p>Impact on highway and road safety due to the associated extra traffic at the property:</p> <p>There is limited off street parking at the property (certainly not room for 4 vehicles) which will impact the surrounding properties when they inevitably park on the road. This road is not wide enough to accommodate this, and could impede emergency vehicles if the road is congested.</p> <p>The property is situated just off the junction with a busy main road where clear visibility at entry and exit is essential. Pedestrians would also be at increased risk.</p> <p>This application, on the face of it looked as though it was a family simply wishing to foster children within their family home. This is not the case as we understand it.</p> <p>On this basis I strongly object to this application.</p>
