<p>1.Number 1A , is a house that was built in the gardens on Number 1..so this has already added to the parking and volume of traffic around the quiet residential road of Lydgate Drive</p> <p>The current residents park both their cars on the drive but whenever they have visitors immediately that impacts on the corner as you turn in from wakefield road , making it quite dangerous if a car is travelling towards you , on a number of occasions I have had to stop in the main road whilst trying trying to turn in , so with this application there will be numerous vehicles and where will they park without affecting traffic entering/exiting Lydgate drive and residents driveways ?</p> <p>If this property is not going to operate as single household but as a commercial business as there will be 3 times a day a changeover of staff plus all the visitors such as social workers. , police , delivery drivers and families where do they all park and how much noise is going to create and-impact on the residents , several of whom are elderly .</p> <p>2.The application states it will have enforced curfews , what support will be given to residents and what will be done to minimise disruption and noise to those who already live here if this application is passed ?</p> <p>3.why did kirklees not follow protocol and put notifications up so locals would be made aware ?</p> <p>We had to call kirklees planning and question as to why the application had no open and close date for comments , we were told it must be a mistake and one was immediately added</p> <p>However it appears that the same case officer and Agent dealt with a similar application in oct 25 and that also had no open and close date for comments , and it would appear no comments were raised and that was passed !!!</p>
