

Drainage will be along the blue line

The map shows a site plan with several colored areas: a central orange area, a purple hatched area, and a light pink area. A blue location pin is placed in the orange area. A blue line runs along the top edge of the purple hatched area. A grey road or path runs diagonally across the bottom left. Dashed lines indicate boundaries or other features. The numbers '33' and '43' are visible on some of the plot boundaries.

The area in purple will be using semi-permeable materials (pebbles / gravel)
