Reference number: 2025/93304 Objection to Long cause way into a Children's Home. Natural environment/ Effect on trees and landscape- Our Houses sit amongst fields and a forest, opening a business such as a children's home is going to create more traffic/ Noise down a quiet road this will affect the trees, hedges, Bushes and Wildlife. Effect of character of an area- Our road is a narrow steep street with only 5 building (6houses) it is a quiet environment surrounded by wildlife, opening a Children home that requires 24hr staff, social workers, Emergency services, Occupational Therapist etc. is Completely different to a family living there. Noise & disturbance- As above, this is a quiet street with minimum Traffic up and down (max 1-2 cars a day) The need of 9 staff to access the property with no other way of entry will cause more noise and that's without other professionals that are required to run a children's home. Impact on Highway safety and Traffic- This isn't a council-maintained road, The road is impossible to use in the slightest bad weather, doesn't get gritted so no cars are able to go up or down in snow /Ice as it is a steep narrow road. Its full of potholes already and will only get worse if the traffic gets busier. Also it's a dead end road with no space for additional cars as staff would use the available spaces so how would other professional get to the property?, Hard if emergency workers need to access for any of the houses if this narrow road is blocked. Scholl children use this public right of way and traffic causes concerns as there isn't paths for them to be able to use.
