<p>I have lived here for almost 33 years in this beautiful cul-de-sac with beautiful neighbours in all these years with a strong feeling of safety and security. I strongly and completely object to this development on the basis of several factors. It is a quiet, peaceful, private, residential, family orientated cul-de-sac, not a place to set up a children's home/business. This will cause lots of major disruptions including noise from on going traffic and congestion in a one way entry and exit route, parking, disturbance to working people on shifts including night shifts, the re-sale of our homes will dramatically be reduced with major consequences. I recently had a stroke and registered partially sighted, relying on a white cane to get around, the constant disruption of traffic and congestion in our small peaceful cul-de-sac would significantly increase thus be a danger to vulnerable people and others. I want to feel safe and secure in my home and this would breach the peace and privacy of our small neighbourhood. I was informed of this development by my neighbours, I have not seen a sign up, I should have been informed via letter where I could have been assisted if needed (some people are vulnerable and elderly and need to be properly informed). I strongly object to this development.</p>
