The local roads are narrow and will not support the increased number of road users should 75 dwellings be erected. Local resources and infrastructure are already overburdened- such as GPs, schools and other local services. Traffic at key times like school drop off and rush hour see the surrounding roads already gridlocked and this development will only add to the chaos. The land is key to preserving local wildlife and green spaces, there are plenty of other non greenbelt land that could be utilised instead. I object most strongly to this application as a local resident with genuine concerns for the negative impact on local infrastructure and the community.
