| <p>The building of 75 houses in this area will have a significant impact on highway safety and increased traffic. If you work on the principle that each house is likely to attract families that have 2 cars, that's 150 extra cars using the nearby, already congested roads. There is a school nearby which will also be impacted by increased traffic. There will be an inevitable impact on wildlife conservation as well as trees. Building this number of houses will reduce the amount of green space available which in turn impacts on the health and wellbeing of children and adults</p> <p>In addition, this application has previously been refused. I cannot see sufficient evidence that those issues have been addressed to warrant planning permission.</p> | |
