<p>This planning proposal has not been given sufficient thought since it was first submitted. The proposal to add more homes into this area which already suffers from traffic problems and the latest proposal to add a second access road to the site will only add to the current congestion which is a serious danger to children and parents. The inevitable additional demand on school places will also be problematic.</p> <p>I am aware that the council carried out a traffic survey but the council chose to use the details measured close to midday when traffic is probably at its lowest. Clearly, the intention was to create a more favourable representation. If the traffic measures had been done at either morning or afternoon school times, the results would be far different.</p> <p>In conclusion this planning application has nothing to offer to the existing residents of the area apart from increased traffic and increased demand on school and doctors.</p>
