Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
Entry/egress from and to Hepworth lane and Wellhouse lane are totally unsuitable for such a large development. Both these roads have bottlenecks which certainly don't lend themselves to such a large increase in the volume of traffic that this development would create. Hepworth lane is one way single track at one end and poor for access at the other. Wellhouse lane has access issues at it's junction with Flash lane again too narrow Can schools healthcare etc cope? I don't think so. Crossley Fields achool is a nightmare with traffic picking up and dropping off. All converging on Wellhouse lane because there is nowhere to park. This would just make things worse. Why don't the council consider more development in South kirklees. There's plenty of land over there. North kirklees is over developed.
