Notes

Projected numbers forecast for 2027/28

The Department for Education expects the capacity of an academy to be based on what is recorded in the school's funding agreement.

Section 106 education contributions are calculated upon priority admission area schools in accordance with the Kirklees policy. It is not always possible to expand the places of the specified schools to meet the impact of additional demand generated by the development for a number of reasons including but not limited to; the value of the contribution is too small to be practically used on its own to expand places, site specifics make expansion impractical at some schools and adding numbers of places outside sustainable school delivery models is also impractical (e.g. class size legislation). Contributions from more than one development may need to be joined together to provide effective mitigation of the impact of more than one development. For this reason, contributions are required to be used in the geographical vicinity of a development rather than specified to individual schools.
