<p>wish to register my strong objection to the proposed access road into the new housing estate via Hepworth Lane. The current traffic levels on this road are already excessive, and introducing additional vehicles would significantly increase the existing safety risks for residents—particularly the many children who live on the street and those who walk to school along this route.</p> <p>Hepworth Lane already experiences a high volume of through traffic, with frequent instances of speeding and drivers failing to pay adequate attention. Adding an estate entrance at this location would worsen these issues and create an environment that is unsafe for pedestrians and detrimental to the wellbeing of local families.</p> <p>The proposed access would also have a negative impact on residents' quality of life and potentially reduce property values. Hepworth Lane is a narrow residential street and is simply not designed to accommodate the increased traffic flow that a new estate would generate. This additional pressure would also contribute to congestion on the main road, creating wider traffic problems for the area.</p> <p>For the safety of our children, the protection of our community, and the preservation of the character of this residential street, I strongly urge that this proposal is not allowed and this estate does not go ahead.</p>
