<p>The roads that will be used to access this development can not accommodate an increase in volume/ further volume of traffic which will be generated by further housing in this area/ at this site.</p> <p>As a local resident I find that the roads are busy and have regular congestion, the roads in this area already do not lend its self to the volume of traffic using the routes.</p> <p>This site is close to a busy school.</p> <p>Increase in traffic will affect child safety walking to and from school particularly because of the nature of the roads and pedestrian areas.</p> <p>As someone who lives off flash lane, I find this stretch of road is already very busy and causes a lot of congestion at busy times of day. This area is not pedestrian friendly due to being narrow and no path on one side. The level of traffic using this road already makes it difficult at time to cross the road sadly and this development will significantly increase the traffic. These routes are all used for both primary and secondary school children.</p> <p>I also feel Mirfield's green spaces are significantly decreasing and we are running out of green space and I do worry for the beautiful wildlife we have in the area.</p>
