Whats changed since the last 3 times planning applications have been denied for safety with the amount of traffic only that the traffic has increased over half again. Hepworth Lane at Shillbank end is very narrow 2 cars can just about pass each other and no pavement. Top of Hepworth Lane so narrow just enough for 1 car no pavement. School children walk up and down these lanes dangerous enough now without more cars. Woodward court a nightmare at school times cars reversing double parking. Wellhouse lane like motorway continuous traffic with double parking at both sides of road nightmare. And now wanting to come out into Hepworth Lane is asking for an accident to happen. All round this area are lanes very narrow and the addition of 75 houses most with 2 cars will make it very unsafe. Plus Mirfield can be grid locked now trying to get out on a morning and school times without even more cars
