I formally object to the planning application 2025/93355. I am a resident of Pumphouse Lane. My reasons for objecting are;
1) The congestion at the junction of Pumphouse Lane and Hepworth Lane onto Wellhouse Lane is, at present, dangerouse and unexcepable and would only get much worse if this developement went ahead. Exciting Pumphouse is a lottery at the moment and, if this were to go ahead, would compound a very real problem. This is also a main walking route for three schools, Crossley Fields, Mirfield Free Gramer and Castle Hall, this would be a significant hazard for walking children and parents alike.
2) The disruption that would ensue just conecting the utility services to the site would be very significant around the whole area. This would be totaly unexceptable.
3) The proposed new exit on to Hepworth Lane will compound the very real traffic problems that already exsist at both ends of Hepworth Lane.
4) The number of heavy goods vehicles that would be needed to deliver all the building materials is unmessurable. The disruption to the school next door and to comunity as a whole significant.
