The road network around Woodward Court cannot support a development of 75 houses. This is an increase in buildings from the previous application.
I use crossley lane and surrounding roads daily and the infrastructure cannot cope with the current traffic volume. Anyone who uses Wellhouse Lane, Crossley Lane or Hepworth Lane especially at school AM and PM drop off and pick up times will know that these roads are horrendous.

Wellhouse Lane is so busy with cars it becomes one lane. Hepworth lane is one way at the junction to Wellhouse so how adding more vehicles to these roads is even being considered is beyond me. This is dangerous. Even the junction onto Hepworth lane from shillbank is not passable at the same time by two vehicles.

I suggest someone visits these roads at school time and experiences the madness for themselves.

This increase in vehicles on this road and crossley lane also puts other road users, pedestrians, cyclists, horse riders etc at risk.
They are not fit for purpose now.
