Preposterous idea.
I wish to formally object to the proposed housing development on the grounds that it would have a detrimental impact on the local area and existing community

The development would significantly increase traffic levels on surrounding roads which are already heavily used at peak times, becoming more and more dangerous.
This raises serious concerns regarding congestion, road safety and access for emergency vehicles
The surrounding roads are narrow, some rural with limited visibility. These roads are unsuitable for the traffic there already is let alone increased volumes and larger vehicles. There is already safety risks for residents, pedestrians, cyclists and the horse riders.
The site supports local wildlife, including habitats that will be disturbed and destroyed by development.

The site is home to horses and ponies during parts of the year who would be extremely sad if their grazing was replaced by tarmac.
