<p>The detriment that this will have on the local area for residents outway any good. The amount of cars it will add to an already congested road, the amount of risk and accidents it poses to children/ dogs walking as the chaotic drivers around school times already pose a problem. The new proposed exit onto Hepworth Lane is a ridiculous blind spot and due to parking only allows for one car to pass at a time. Routes outside the development push a further problem onto Wellhouse Lane, Flash Lane, Shillbank, Sunnybank, Greenside and Church Lane at all times, this would affect the local area as well as the 3 local schools that already create a gridlock on these roads. There will be no new jobs created for the proposed development, which creates the need for more cars on the road. The fields are currently a well used part of Crossley for the community to allow a safe space for children to play and dogs to be walked. The nature that resides in the fields and trees would be pushed away with nowhere else to inhabit. There isn't a need for this development in Mirfield and the local residents will continue to object to any application</p>
