Subject: Planning reference 2025/93355

Categories:

Hello,

I live at Polkerris, Shillbank Lane, Mirfield, WF14 0PZ.

I would like to object to the application 2025/93355 with the building of 75 houses on Balderstone Fields.

I would like to state my objection by asking questions.
Since the previous application was rejected what has been done to warrant the application now going ahead?
Has Wellhouse Lane been significantly widened to accommodate a decent pavement for the safety of pedestrians?
Has Crossley Fields School or any other Mirfield school extra capacity for extra pupils?
Do we now have extra capacity at the doctors ?
Has there been consideration for the environmental impact on biodiversity?

I'm not aware, other than maybe the doctors, that any of the above have been satisfied.

How can an application be seriously considered again and again when nothing has been accomplished in the above departments?

Yours sincerely,
