<p>The roads around the planning application are carnage at school time and at most times if you meet a car coming the other way it is a struggle to pass. There is no room on Hepworth lane to pass vehicles. There is the opportunity with the planning application that 150 more cars will be on these single track roads which is unsustainable and dangerous for both drivers and pedestrians. Attempting to corner from flash lane onto Hepworth lane is almost impossible when another car is coming in the opposite direction. The more cars the more pollution as well in an already densely populated area. The roads just aren't wide enough at either Hepworth lane or wellhouse lane and given the amount of street parking that also occurs means the likelihood for accidents increases, given the school traffic and number of children on narrow or non existent pavements it is a recipe for disaster and a child will get seriously injured should this application be accepted</p>
