Subject: OBJECTION TO APPLICATION 2025/93355

I wish to formally object to application 2025/93355 on the grounds that this developnent will overstretch the already inadequate infrastructure in Mirfield and the surrounding area in particular, vis à vis schools, doctors and the road system. In the immediate vicinity Hepworth Lane could not safely accommodate any extra traffic the development would inevitable generate. The lane is too narrow in places for two cars to pass. It lacks footpaths/pavements, forcing both vehicles and pedestrians—especially schoolchildren—to share the road, which increases the risk of congestion and accidents.
